THE counsel for Stokes are said to at-tribute his conviction to the excited con-dition of New York society and the severe comments of the press about the increase in the number and atrocity of murders in the community. If this were true, it would only teach that the people can always do much for their own protection by vigorously demanding the exccution of the law and the suppression of crime. There is another circumstance, however, that probably had a large influence in determining the result of the trial. This is the modification of the jury law which permitted the empanelling of respectable men, sufficiently intelligent to construe the evidence and instructions properly and sufficiently interested in the construe the evidence and instead in the properly and sufficiently interested in the french minister there remarked on the death of Napoleon: "The Empire is dead, now that the man has died." INDIANA.

Gov. Baker's Message--The State Finances. Indianapolis, January 10 .- Gov. Baker delivered his last message to the Gen-eral Assembly this afternoon. The for-eign debt of the State is reported as folows : . Amount of 5 per cent State stock under the adjustment of 1867, \$32,869 99 amount of 2; per cents \$4,06012; amount of war loan bonds, issued under legisla-tion of 1861, still outstanding, \$175,93012, to which must be added the amount of the old bonds issued prior to 1861, the payment of which is provided for by act approved December 12, 1873, and the interest accrued thereon, making a total of \$562,000 on this score, and a grand total of \$744,930 12. The domestic debt of the State consists of the non-negotiable bonds of the State issued to its own school fund, to the amount of \$3,905, 906 25. The interest of this being pledged to the schools it is really no debt at all in the ordinary acceptance of the term, but a bond that the State shall pay so much into the school fund. There is in the hands of the Tressurer of the State and the Agent of the State the sum of \$007,743 84, and the uncollected proceeds of the State tax for 1872 is esti-mated at \$350,000. The estimated ex-penses of the present year are, for the 100,000, and for the ordinary expenses of the government, benevolent institutions, reformatories, prisons, interest on the doreformatories, prisons, interest of an admessio debt and on the war loan bonds, \$785,385. This is on the ground that the expenses of these institutions will be the same as in 1873. But there is an imperative demand for the increase of the acmmodations for the insanc, and he thinks the levy for the years 1873 and 1874 for State purposes should be 15 cents on the \$100, and also that the sale of the revenue of 1873 will have to be anticipated for the extra expenses on this account this year. He calls attention to the necessity of enlarging the duties and responsibili-ties of the Attorney General, and recomnends that the law be changed accord-ngly and that that officer be compelled o live at the capital, as the other State officers, and keep an office. Superintendent Prior telegraphs that there are eight freght trains snowed in between McGregor and Austin. The snow is packed so gor and Austin.

The snow plows have no effect
upon it, and it will have to be shoveled
out. All that can be seen of some of the
trains is here and there the top of a brake ust protruding above the snow, and nothing but the top of the smokestack of an engine marks their whereabouts. The thermometer ranged between 20 and 25 degrees below zero and the wind was blowing a perfect gafe. The drivers who drove the teams of relief were badly frozen. The railroad company is doing all that is possible to relieve the delayed

passengers and reopen their road.
